1965 Corsa Coupe

I've got the usual story. Had several used Corvairs in the sixties and enjoyed every one, starting with a 1960 2 door which I got at a Bell Telephone auction in 1965. Then marriage, kids, and career came along. I bought this 66 Corsa two years ago. It's very complete and original, but the engine is locked up and needs rebuilding. So, I'm finally getting it into my garage and plan on beginning the restoration this winter. I'm planning on using all the wisdom and advice your members have to offer.
